Seasons Greetings!!

This cold weather has the IMRivers (VERTICES) staff in the holiday spirit! We're donating one website design with one IMRivers interactive map licensing for one year to a watershed organization or waterkeeper in need.

The IMRivers staff is offering a collective 12 hours of their time one evening (following a good hearty meal, of course) to creating this application for one lucky organization.

But that's not all!! There is an added Holiday bonus. The money that would normally pay the hard-working staff of IMRivers will instead provide airfare for a Rutgers student's winter rowing training. Skip Kielt is a student intern at VERTICES and is currently training for the United States Rowing National Team (this means long hard hours spent on our beautiful rivers, lucky guy! Just to name a few, he's rowed on the Raritan River, Charles River, Connecticut River, Housatonic River, Lake Mercer, Lake Carnegie, Oakland Estuary, Briones Reservoir, Hillsboro River, Tampa Bay, Erie Canal, Buffalo River, Cayuga Lake, and the list goes on!)

Skip has rowed with the U23 National Team (2008) and has made it to the U23 National Team Training camps for the past 3 years. He has medalled multiple times at both U.S. and Canadian National Championships. Since it is cold and the rivers are starting to freeze in the northeast, Skip has training trips planned for Tampa and Miami, Florida in January.

Here's what you have to do:

If you are interested in participating and receiving one FREE IMRivers application AND sending Skip to Florida, write a short paragraph describing the type of map you would like to create and the ideas that you have by **Friday, December 18th** (we know that its short notice but its for a good cause!). Include the data sources that you have available to you and any additional resources you have. We will be choosing one or two organizations based on the work requirements. All data and information will need to be sent to us by the end of next week so that we can have the project finished by Christmas. If you don't have a project idea, please share this offer with your river friends. Email your idea and contact information to Dr. Im at gis@vertices.com.

Again, Happy Holidays!

Dr. Wansoo Im – IMRivers
